

# Challenge 1

# The Big CO2 Swap

If everyone in Northumberland looked for 62 miles of opportunities to ditch the car and walk or cycle - the length of its coastal path - collectively we would save 26,541 tonnes of car exhaust fumes. How many miles could you swap this week and how far along the 62 miles of coastal path could you get?

Day 1

Day 2

Day 3

Day 4

Day 5

Day 6

Day 7

Total =

Mark off a step for every mile you swap:

 62 miles - you've completed the coastal path!
